- Cooking for #1
Customer Quotes

“I have Chronic Fatigue Syndrome and have scaled back on all of my activities, even quitting choir. The only thing I still attend is this book club anymore.”

“I recently took time off of work as a nurse for a hip replacement. The drugs make it too hard to read but I have been coming to 2-3 programs all over the system each week. As a traveling nurse, I travel all over the country, and am always going to libraries and love this one so much that I would like to retire in Denver.”
A grandpa who regularly attended my baby storytime stopped me in the hall to let me know that he was so inspired by seeing me play the ukulele in baby storytime that he decided to attend the ukulele classes offered at Park Hill. He found that he loved the ukulele so much that he has now joined the Rocky Mountain Ukulele Orchestra, and says he owes it all to us.
Community Singers

A singing group for anyone who loves to sing -- on key or off!
Conscious Aging

An eight-week series about embracing aging and living a passionate and fulfilling mature life
Lessons Learned
● Intergenerational means fun for everyone!

● People crave information

● Think about the physical space

● The more relationships you build, the more successful you will be

● Great ideas are everywhere, if you keep your eyes and ears and mind open

● Don’t be afraid to experiment… and sometimes even fail
- **Train** your staff in age friendly and dementia friendly practices
- Find **partners** in your community
- Seniors are busy! Use **consistent** timing
- Everyone loves **snacks**!
- **Details** are appreciated
- **Reject stereotypes**
- Have **FUN**!
Do now (or kind of soon-ish)!
1. Make a commitment to serve this population

1. Make a list of ideas of programs you can offer and services you can provide

1. Pay attention to who your customers are

1. Dig into demographics
