Understanding School Readiness

Head Start Early Learning Outcomes Framework

The Framework is grounded in a comprehensive body of research about what young children should know and be able to do to succeed in school. This information will help adults better understand what they should be doing to provide effective learning experiences that support important early learning outcomes.

Colorado Early Learning and Development Guidelines

The Guidelines describe the trajectory of children's learning and development from birth to 8 years old in Colorado. The domains used evolve within the Guidelines to reflect the specific requirements of each age group. However, they maintain a broad view of the whole child and all aspects of children's growth.

Reimagining School Readiness Toolkit

Review of the latest research identifies the skills and conditions that matter most for a child's success in school and life. The toolkit offers resources for librarians, educators, and families, among others, to create supportive learning experiences and environments.
